

REMARKS

Reconsideration is requested.

Claims 18-42 are pending. Claims 26-35 have been withdrawn from consideration. Claims 36-42 have been added and find support throughout the specification and the unamended claims. No new matter has been added.

The new claims read on the elected subject matter. The claims have been revised to define subject matter indicated by the Examiner as having been examined. See page 3 of the Office Action dated September 8, 2008.

Claim 23 has been revised to correct the chemical name for compound EHT 2725, which was inadvertently stated in the unamended claim as a repeat of the previously listed compound. Support for the amendment in this regard may be found, for example, in Example 37 of the specification. No new matter has been added.

The claims have been revised, without prejudice, to obviate the remaining objection to the examined claims.

Withdrawal of the objection to claims 18-25 is requested.

Rejoinder and allowance of the method claims with the examined product claims are requested.

The claims are submitted to be in condition for allowance and a Notice to that effect is requested. The Examiner is requested to contact the undersigned, preferably by telephone, in the event anything further is required.
